

VÍTOR OLIVEIRA DE JESUS BARBOSA

Software Developer in Training | Internship & Entry-Level IT Positions

Anápolis, GO, Brazil • <https://github.com/kingsvictory10> • <https://www.linkedin.com/in/v%C3%ADtor-oliveira-de-jesus-barbosa/>

PROFESSIONAL SUMMARY

Software Engineering student (2nd semester) with a strongly self-driven profile and hands-on experience building real-world solutions. I combine solid academic foundations with direct involvement in software projects, leveraging modern AI Coding and Prompt Engineering tools to accelerate development cycles. My long-term international experience in West Africa has shaped strong cross-cultural intelligence, adaptability, and the ability to thrive in diverse environments. Available full-time, with immediate start and a commitment to adding value from day one.

CORE COMPETENCIES

Languages & Logic

Algorithms • Programming Logic • Python (basic/intermediate) • JavaScript (foundational concepts)

Tools & Methodologies

Git & GitHub • Database Concepts • Scrum (Fundamentals Certified) • Microsoft Office Suite

AI Coding & Productivity

Advanced Prompt Engineering • Cursor IDE • AI-assisted Development

Soft Skills

Self-directed Learning • Effective Communication • Cross-cultural Intelligence • Proactivity • Adaptability • Team Collaboration

PROFESSIONAL EXPERIENCE

IT & Customer Support Intern | Plan&Do

May 2026 – Present | Anápolis, GO, Brazil

- Deliver direct consultative support to clients and students, consistently achieving high satisfaction rates and efficient resolution of demands within the study environment.
- Independently conduct R&D in software development to plan and architect a future website and mobile application for the company.
- Apply professional project conventions (Conventional Commits, layered architecture, LGPD compliance) and produce technical reference documentation.
- Oversee physical facility operations, ensuring organization and quality standards of the environment.

Developer — Volunteer Project | PIBTech / SEBRAE Hackathon

2025 | Anápolis, GO, Brazil

- Co-developed the B2B prototype 'Auralis Flow' in a hackathon environment, leading the full development cycle in React + Vite + Tailwind CSS with deployment to Vercel.
- Implemented PDF report generation using Python/ReportLab and delivered a live technical presentation to an evaluating panel.
- Applied advanced AI prompting techniques (Cursor IDE) to accelerate delivery and overcome tight time constraints.

Developer — Volunteer/Freelance Project | Aletheia Editora

MVP Target: October 2026 | Anápolis, GO, Brazil

- Co-developing the Theo & Soli App — a Christian educational platform for classroom management and curriculum delivery, serving churches across Brazil.
- Gathered and structured client requirements, contributing to the definition of an MVP scope comprising 10 screens, 5 user permission levels, and real-time synchronization via WebSocket.
- Architecting and developing key features including Projector Mode (teacher controls the classroom screen via smartphone), student assessment system, and automated certificate generation.
- Applying LGPD compliance throughout the data architecture, with special handling for minors' data, and evaluating offline support via PWA for churches in low-connectivity areas.

EDUCATION

Bachelor of Science in Software Engineering

UniEvangélica 2026 – 2029 (in progress)

Bachelor of Theology and Transcultural Missions

Instituto Missionário Palavra da Vida Norte 2022 – 2025

Includes long-term residency in Guinea-Bissau, West Africa — developed fluency in Guinea-Bissau Creole and cross-cultural intelligence applied to diverse, multicultural environments.

High School Diploma

Escola Liceu João XXIII 2018 – 2021

CERTIFICATIONS & CONTINUING EDUCATION

Completed

- **Scrum Fundamentals Certified (SFC™)** — SCRUMstudy
- **Git & GitHub** — ADA Tech / DIO
- **Algorithms & Programming Logic** — ADA Tech / DIO
- **Database Fundamentals** — ADA Tech / DIO

In Progress

- **Full Stack Python Developer** — Mate Academy
- **CS50: Introduction to Computer Science** — Harvard University (edX)
- **Cursor Track (Advanced AI Coding)** — NoCode Startup
- **Responsive Web Design** — freeCodeCamp

LANGUAGES

Portuguese — Native **English** — Advanced / Fluent **Guinea-Bissau Creole** — Fluent

Availability: Full-time (mornings and afternoons) • Immediate start
